TO OUR "GLAD" AND DAHLIA FRIENDS.

In this concise list of Gladiolus and Dahlias we are offering bulbs at prices which are in keeping with the downward trend of other commodities. Compare them before ordering elsewhere.

The large and medium Gladiolus bulbs are sure to bloom this season, while the small size make wonderful bulbs for next years planting.

All of our stock is planted on sandy loam soil which is ideal in producing clean and vigorous bulbs. To keep them free from disease we never plant on the same ground two years in succession but rotate with a leguminous crop.

COME AND VISIT WITH US

We extend to you a cordial invitation to come to our gardens during the summer months. A visit and personal inspection is much more satisfactory than any description we could give you, and we sincerely hope you will arrange to come.

Our farm is situated three miles east of Hightstown just off Route 33 from Hightstown to Asbury Park.

We wish to thank our many patrons for their past favors and hope to merit their future patronage.

Sincerely,

H. M. BARRETT & SON.

READ THIS BEFORE ORDERING

All stock offered subject to prior sale.

Orders for \$2.00 or more from this list will be sent prepaid anywhere the parcel post goes. On orders for less than \$2.00 add 15c to cover postage and packing.

Remittances must accompany orders.

While we guarantee stock to grow and produce good blooms and bulbs when planted under favorable conditions, we will not be responsible for crop, but will replace any that prove untrue to name.

In this list we offer three sizes, namely: Large, medium and small. The large size will be from 1½ to 2 inches in diameter. Medium size ¾ to 1¼. Small size ¾ and under.

On all orders of \$5.00 to \$10.00 we will allow 5% off list price, from \$10.00 to \$25.00, 10 % and for \$25.00 or more 15%.
